Model C110DUO

FOR IMMEDIATE RELEASE:

Multi-tasking Teak Furniture - Storage Solutions for Living Spaces Inside and Out!

Get Creative with Solid Teak Freestanding Furniture From Innovator Bristol and Bath.

(Philadelphia, PA – January 9, 2007) The renowned purveyor of the finest in European bathroom furniture has come out of the bathroom with beautiful storage solutions for nearly every room in the house, and even outdoor living spaces too. The stunning Teak Collection from Bristol and Bath features a handsome array of amazingly versatile solid teak pieces that are equally at home in an elegant master bath or a hard-working laundry room. With a little ingenuity, Bristol and Bath took one piece of furniture and designed it for endless uses!

For example, their NEW Model C110DUO is a beautifully crafted freestanding unit that can adapt to any environment – inside or out. From the powder room to the mudroom, this stylish piece offers exceptional storage and, when paired with a sink, creates a durable “goes anywhere” piece of furniture that can “multi-task” with panache. Put one in the home gym for washing up after a grueling workout or add by the pool for stashing towels, sunscreen and other supplies. A few chic baskets underneath creates even more quick access storage solutions. The possibilities are limited only by your imagination.

All of the exceptional pieces in the Teak Collection share the beautiful tones and coloring that have made the wood so popular. Teak is known for its exceptional resistance to insects and dampness. In fact, it has been used for centuries as decking in sailing ships because of its high natural oil content, and its inherent durability has made teak the material of choice for outdoor garden furniture.

Available as either a single or double unit, the model shown here - a double open design, measures 84” long x 24” wide x 34” high. It is spacious enough to accommodate one or two washbasins, or it can be quite simply used alone for storage. The unit retails for \$1840 as pictured.
